ANCIENT EGYPT RESEARCH PROJECT

Follow the steps below for your Egypt Research project. When you complete a step, show Mr. Miller or Ms. Falls so that they can sign your paper. You must complete each step (including signatures) to get credit for the research. Later, you will use this information to write a research paper.

Step 1: List of possible topics

Browse through the books about Egypt and create a list of topics that look interesting to you.

Step 2: Narrow your topic

Decide on one topic that you will focus on for this entire project.

Your research topic: _____ (ex: pyramids)

Get a teacher signature: _____ (5 points)

Step 3: Characteristic of Civilization

Explain which of the seven characteristics of civilization relates to your topic. The options are stable food supply, social structure, government, religion, the arts, technology, and writing.

Get a teacher signature: _____ (5 points)

Step 4: Write a research question

An "appropriate" research question is **a)** interesting to you **b)** not too broad and not too narrow **c)** answerable with research from our books and Internet sources.

Example: Why were the pyramids built?

Get a teacher signature: _____ (5 points)

Step 5: Brainstorm keywords

List a minimum of 5 keywords related to your topic. This will help you with your research.

_____	_____
_____	_____
_____	_____
_____	_____
_____	_____

Get a teacher signature: _____ (5 points)

Step 6: Take notes

You will turn in notes from **at least four** different sources. Use a different page of notes for each source. The bibliography information must be filled out on **each** note-paper. Have a teacher initial each page of notes after you complete each sheet (**5 points each**).

Step 7: Turn in your work

Your finished research packet should include this sheet with all required signatures and at least four pages of notes with bibliography sources.

Your research grade: _____ / 40 points
