Museum Artifact Rough Draft Sketch

Use the box below to draw a rough draft of your artifact. Keep in mind the final draft size for a 2-D (2 dimensional) artifact needs to be at least 8½” x 11” (a regular sized piece of paper.) 3-D artifacts can be smaller but must show a strong effort. If you are doing a 3-D artifact, divide the box in half to show a side view AND a front view. Write notes/labels that will help you create the final piece, such as what colors, shapes, materials, textures, etc. to use.

A large, empty rectangular box with a black border, intended for drawing a rough draft of an artifact. The box is currently blank.
